YOUR GUIDES ON THIS JOURNEY

"We built MonetumThrive because the path to wealth should not be a secret. Every tool in this series exists to walk it with you — all the way."

— ALVIN & ADIA · MonetumThrive.co

A LETTER FROM ACES

"Be careful of what captures your mind — for what consumes your mind controls your life."

That was my parting quote at graduation in 2018. But, I did not yet understand how true it was.

You have seen financial lack. You know what it feels like to be broke — helplessly, hopelessly out of cash — watching your needs pile up while your wallet sits empty. Perhaps right now, just funding your most immediate needs feels like your greatest challenge.

And maybe the questions running through your mind sound like: Why is this so hard? What am I doing wrong? What have those who have the financial freedom I dream of actually done to get there?

I have been there. And the answer changed everything for me.

Shortly after graduation, I found myself trapped in a frustrating cycle. I had the burning zeal to do something meaningful — but I would retreat to my comfort zone before I had barely started. Then came the financial pressure: bills, obligations, responsibilities. I settled for whatever could pay quickly, because deep down, I was not ready to be free. I was only trying to survive.

What I did not know then — and what took me time to discover — was that my real problem was not circumstance. It was not the economy or my background or my opportunities. It was my mind. I was carrying deeply rooted beliefs about money, success, and self-worth that I did not even know I held. Quiet beliefs, absorbed from my environment, running silently beneath every decision I made.

The turning point came through books. *The Power of the Subconscious Mind* by Joseph Murphy. *Atomic Habits* by James Clear. *Outwitting the Devil* by Napoleon Hill. *Rich Dad, Poor Dad* by Robert Kiyosaki. One by one, they illuminated what had been invisible. I began to see the patterns. I began to break them — rewiring my thoughts, building new habits, reprogramming the beliefs that had quietly been costing me.

That personal transformation became MonetumThrive. And this toolkit — and the full [Mindset Makeover eBook](#) — is the structured version of everything I went through, distilled for you.

This is for the young entrepreneur building without a foundation. The startup owner with skill but no clarity. The person who feels stuck and cannot name why. Anyone who has ever earned and wondered where it all went. If you are ready to think differently, live differently, and win differently — this is where it begins.

You do not get to financial freedom by accident. You get there through alignment — and alignment starts in the mind. That is the principle this entire company was built on: Everyone deserves the good life.

Welcome. Now let us build.

— Aces Smith (CEO Aces)

The 6-Stage Path From Broke to Wealthy.

THE COMPLETE WEALTH PATH – MONETUMTHRIVE SERIES

Curriculum

BEFORE WE BEGIN

There Is a Path From Where You Are to Where You Want to Be.

Financial lack. Financial strain. Financial stagnation. This toolkit exists because that problem is real — and so is the solution.

It has six clear stages. Each one builds on the one before it. Together they form the complete journey from financial stagnation to financial freedom — and it is available to anyone willing to walk it.

This toolkit introduces you to that path, walks you through each stage, and gives you the two most powerful tools for starting it right — because how you begin determines whether you finish.

Before we go further, sit honestly with these questions:

Have you imagined what financial freedom could feel like — a life free from financial stress, debt, and the limits of a tight budget?

Do you find that earning money is hard, holding on to it is harder, and growing it feels almost impossible?

Do you feel stuck — working hard but not moving forward — without being able to clearly name why?

If any of this resonates — it is not a coincidence. It is not a character flaw. It is a preparation gap. And this toolkit begins to close it.

"Read slowly. Work the exercises honestly. The value is not in the reading — it is in what the reflection reveals."

— HOW TO USE THIS TOOLKIT

THE COMPLETE MODEL

The 6-Stage Path to Financial Freedom

This is the answer to financial lack, stagnation, and strain. Not a shortcut — a complete, structured path from where most people are stuck to where they are trying to go.

Each stage is a distinct phase. Most people skip stages or jump to the middle. The path works when you walk it in full, in order.

- | | | |
|---|---|---|
| 1 | THE FOUNDATION
MINDSET WORK | How you think determines everything you pursue, build, and hold. Wealth begins internally before it appears externally. This is where this toolkit lives. |
| 2 | THE CAPABILITY
SKILL ACQUISITION | You develop a real, marketable ability that creates value — through formal education, professional training, certifications, mentorship, self-study, or hands-on experience. The skill must solve a problem people will pay to solve. |
| 3 | THE EXCHANGE
VALUE CREATION | You place your skill in front of the right audience who needs it and will pay for it. This is monetisation. This is marketing. This is selling. Attention is the most valuable asset before money changes hands. |
| 4 | THE FLOW
INCOME GENERATION | Value consistently delivered becomes income — the predictable result of skill, positioning, and a prepared mind doing it repeatedly. |
| 5 | THE MULTIPLICATION
INVESTMENT THINKING | Instead of consuming what you earn, you place money into assets that multiply it over time — building a financial base, not just a pay cheque. |
| 6 | THE LEGACY
WEALTH CREATION | Your money grows, compounds, and eventually outlives your direct effort. Financial freedom forms — and with the right foundation, it lasts. |

STAGE 3 — A CLOSER LOOK

Value Creation: The Stage Most People Get Wrong

Having a skill is not enough. Even being excellent at what you do is not enough — if no one who needs it knows you exist.

THE CORE IDEA OF VALUE CREATION

Value creation is the ability to place your skill, knowledge, or expertise in front of the right audience who needs it badly enough to pay for it. It has many names — monetisation, skill packaging, marketing, and most commonly: selling. Value, placed before the right people, exchanged for money.

Attention is the most invaluable asset before money ever changes hands. Most people have genuine value inside them — real skills, experience, and knowledge. But value invisible to the people who need it is commercially worthless. You must package your skill into an offer that people can see, understand, and say yes to:

- Know exactly who your skill serves and what pain it resolves for them
- Package it into a clear, compelling offer — a service, product, course, or business model
- Place that offer where the right audience will find it and recognise its value
- Communicate it clearly enough that the right people are moved to pay

A skill without an audience generates admiration.

A skill placed in front of the right audience generates income. That is the difference between a hobby and a business.

Skill-to-Scale (Book 2) teaches you to identify your skill and package it into a monetisable offer. Choice Skills (Book 3) gives you proven, ready-to-deploy skills and business models generating real income today — online and offline.

WHY IT ALL STARTS HERE

Every Stage Depends on the One Before It. And All Six Depend on Stage 1.

Now that you have seen the full path, here is what most people miss. Each stage assumes the previous one is stable. Skills built without mindset go unused. Income earned without mindset gets consumed. Investments made without mindset get abandoned at the first sign of fear. This is the pattern Aces lived – and broke.

X WITHOUT MINDSET FOUNDATION	✓ WITH MINDSET FOUNDATION
Money arrives and disappears. Nothing in the mind knows how to hold, direct, or grow it.	Money is received with intention – every amount directed toward growth, not escape.
Skills are built and never offered – identity says: this is not for someone like me.	Skills are packaged, placed, and sold – identity is aligned with deserving the result.
Income grows but lifestyle expands with it. The number changes. The feeling of scarcity does not.	Discipline holds even when motivation fades. Decisions come from direction, not impulse.
Investments are made and abandoned at the first sign of discomfort or fear.	Long-term thinking is natural. The mind holds the vision through short-term turbulence.

THE WEALTH IDENTITY PRINCIPLE

Discover and install the wealth identity, decision framework, and daily habits that wealthy people use to earn more, hold it, and grow it – consistently. This is what Stage 1 builds. The complete work is in the [Mindset Makeover eBook](#).

STAGE 1 — THE TOOL

The M.I.N.D.S.E.T Framework

Stage 1 is a 7-part process arranged in a weekly delivery format — one chapter per week, over 12 weeks. Each stage builds on the one before it. Journal exercises and affirmations are built into every stage.

This toolkit walks you through M and I in full. The remaining five stages are completed in the [Mindset Makeover eBook](#).

M	Mental Awareness	Understand the beliefs silently controlling your results. Covered in full — this toolkit.
I	Identity Shift	Become the person capable of wealth and growth. Covered in full — this toolkit.
N	Neuro Reprogramming	Replace limiting beliefs with empowering mental habits at the neurological level.
D	Decision Power	Make choices aligned with your future, not your past. Build a personal decision framework.
S	Strategic Learning	Acquire the specific knowledge that creates real, marketable value and income.
E	Execution Habits	Build daily systems that turn knowledge into consistent, compounding results.
T	Transformation Lifestyle	Live the change until success becomes who you are — not what you are trying to do.

The full 7-stage framework is covered week by week in the [Mindset Makeover eBook](#)

THE 7-STAGE SYSTEM – VISUAL OVERVIEW

Each stage flows into the next. You do not skip steps – you build through them. This is not a checklist. It is a sequence of becoming.

Figure: M.I.N.D.S.E.T Framework

The complete framework – all 7 stages – is in the [Mindset Makeover eBook](#)

FRAMEWORK ONE — FULL

M — Mental Awareness

Most people go through life reacting — without ever asking: why do I think this way? Why do I keep getting these results? Why does change feel so hard?

The answer is almost always found not in behaviour — but in belief. The beliefs that formed silently over years and now operate automatically beneath your conscious awareness. Many people spend years living under beliefs they never consciously chose — absorbed from family, culture, school, religion, and past experiences.

Where Your Beliefs Were Formed

Your beliefs about money, success, effort, and growth were not chosen. They were absorbed — through:

- Family conversations and what was normalised at home
- The environment and social conditions you grew up in
- Past experiences that created lasting emotional conclusions
- Repeated thoughts that eventually hardened into convictions
- Things you accepted as true without ever questioning them

Over time, those beliefs became automatic. They now quietly influence your confidence, your risk-taking, your discipline — and especially your financial behaviour.

You cannot change a pattern you cannot see.

Awareness is not the finish line — it is the starting gun.

If you grew up hearing that money was scarce, dangerous, or only for certain people — you likely developed a subconscious habit of avoiding it, shrinking from opportunity, or spending it quickly. You would not choose this consciously. But it would still be running your life.

EXERCISE 1 — MENTAL AWARENESS

Identify the Beliefs Behind Your Money Patterns

EXERCISE 1 · IDENTIFY YOUR MONEY BELIEFS

Take 5 minutes. Write down the very first thoughts that come to mind when you hear the word "money." What did you grow up hearing? Do you believe wealth is available to someone like you? Do you feel fear or guilt when you think about earning more?

Write your answer:

EXERCISE 2 · IDENTIFY LIMITING PATTERNS

Observe your current behaviour honestly. Do you avoid opportunities because you feel unprepared? Do you delay things you know you should do? Do you make short-term decisions that cost you long-term? Do you struggle with consistency even when motivated?

Write your answer:

EXERCISE 3 · NAME THE BELIEF BEHIND THE PATTERN

For each pattern above, ask: "What would I have to believe about myself or money for this pattern to keep repeating?" Example: "I must believe I do not deserve financial success."

Write your answer:

FROM THIS, YOU SHOULD HAVE DISCOVERED:

- Why people stay stuck — not because of circumstance, but because of unseen belief operating beneath every decision
- Why patterns repeat — the subconscious is loyal to what it learned, not what you want
- Why awareness is the first step — you cannot rewrite a story you refuse to read

"This is not about judging yourself. It is about seeing clearly. The moment you can name the belief, it begins to lose its power over you."

Weeks 1–3 of the Mindset Makeover program go deeper with guided weekly journal exercises, affirmations, and case studies.

[Continue in the eBook →](#)

Every question in this toolkit is a mirror.

Look into it without judgment. What you see clearly, you can begin to change. The breakthrough is in the process, not the pace.

Identity Shift — Next

Awareness tells you what is running your life. Identity tells you who is running it.

FRAMEWORK TWO — FULL

I — Identity Shift

Awareness tells you what is running your life. Identity tells you who is running it

Most people try to change their results without changing who they believe they are. They push harder, start new habits, follow new systems — but eventually slide back. Not because of weakness, but because their identity is quietly overruling every effort.

You do not rise beyond the identity you have accepted.
Change the identity — and the behaviour adjusts automatically.

Identity is the internal story you carry about who you are and what you are capable of. Instead of only asking "What do I want to achieve?" you begin asking: "Who must I become in order to achieve it?"

- Who am I when it comes to money?
- What kind of person am I — a builder or a survivor?
- What do I believe is genuinely possible for someone like me?
- Do I deserve financial freedom, or is that for other people?

The Identity Trap

This is why many people start strong but stop halfway, set goals but fail to follow through, know exactly what to do — but still do not do it. It is not a discipline problem. Their actions are fighting their identity. And identity almost always wins.

James Clear writes in Atomic Habits: every action is a vote for the type of person you believe yourself to be. The goal is not to achieve a result — it is to become the person for whom that result is natural.

Instead of "I am trying to save money" — say: "I am someone who respects money and builds wealth." This is identity architecture — redesigning the operating system, not just the app.

EXERCISE 2 — IDENTITY SHIFT

Audit, Define and Act From Your New Identity

EXERCISE 1 · AUDIT YOUR CURRENT IDENTITY

Write the first thing that comes to mind without editing: "Right now, when it comes to money and success, I see myself as..."

Write everything that surfaces. Do not filter.

Write your answer:

EXERCISE 2 · DEFINE YOUR DESIRED IDENTITY

Write forward — not from where you are, but from where you need to be: "To build the life and financial reality I want, I need to become someone who..." What do they believe? How do they handle money, opportunity, and setbacks?

Write your answer:

EXERCISE 3 · ACT FROM THE NEW IDENTITY — TODAY

Identity is built through repetition of aligned actions. Write 3 simple behaviours the person in Exercise 2 would do daily. Then do one today — before you finish reading this toolkit.

Write your answer:

YOUR WEALTH IDENTITY DECLARATION

This Is Who I Am Now.

Complete each line. Write without filtering. This is a declaration of the person you are choosing to become.

I AM BECOMING A PERSON WHO...

I RELEASE THE BELIEF THAT...

MY RELATIONSHIP WITH MONEY IS NOW...

I NO LONGER ALLOW MYSELF TO...

STARTING TODAY, I COMMIT TO...

SIGNED	DATE

Take this declaration further – complete the identity work in the [Mindset Makeover eBook](#)

FROM THIS, YOU SHOULD HAVE DISCOVERED:

- Why identity controls behaviour — it is the operating system beneath every financial choice
- Why willpower alone fails — it is fighting the identity, not changing it
- Why results follow identity — when you become the person, the actions become automatic

"You are not stuck because you lack ability. You are stuck because you are operating from an old identity. The moment that story changes — everything else begins to move."

Weeks 4–6 of the Mindset Makeover program complete the Identity Shift process with guided commitments, affirmations and real case studies.

[Continue in the eBook →](#)

THE JOURNEY AHEAD — N, D, S, E, T

You have completed M and I. What follows in the [Mindset Makeover eBook](#) goes deeper:

N Neuro Reprogramming

Daily practices that systematically overwrite limiting beliefs at the neurological level — using visualisation, affirmations, and habit formation.

D Decision Power

A personal decision framework that consistently moves you toward long-term financial growth over reactive short-term choices.

S · E · Strategic Learning · Execution Habits · Transformation Lifestyle T

The focused knowledge system, the wealth-aligned daily habits, and the lifestyle architecture that turn mindset into permanent, compounding results. Plus bonus chapters on financial literacy and legacy living.

READER WINS

What People Are Saying

Real results from people who have walked through the MonetumThrive framework.

"Before this, I thought my problem was money. After the Mental Awareness exercises, I realised my problem was my mind. I had been running a scarcity programme absorbed from my environment growing up. The moment I saw it clearly, I could finally begin to change it. This is not just a book — it is a mirror."

Chukwuemeka D.
Young Entrepreneur · Lagos

"I started my business with skills but no direction. I kept underpricing myself, avoiding visibility, and wondering why nothing was growing. The Identity Shift framework exposed exactly why. Three weeks after finishing the full program, I restructured my offer and made my first consistent sales. The mindset work was the missing piece I did not know I needed."

Adaeze O.
Startup Business Owner · Abuja

"I have read self-help books before. Most of them inspire you for a day and then fade. Mindset Makeover is different because it does not just motivate — it diagnoses. The journal exercises at the end of each chapter forced me to be honest with myself in a way I had been avoiding. By Week 6, I had broken patterns I had been stuck in for years."

Favour E.
Personal Growth Enthusiast · Port Harcourt

"I used to earn and somehow always end up with nothing. Not because I was not working hard. The 6-stage model showed me exactly where I was failing: I was jumping straight to income without the foundation. The wealth identity work and the financial literacy chapters changed how I think about every naira I earn."

Kelvin A.
Graduate Starter · Enugu

SELF-ASSESSMENT

Where Are You in the 6-Stage Cycle?

Mark the stage that honestly describes where you are right now. There is no wrong answer — only the truth that shows you the next step.

- ☐ **Stage 1 — Mindset Work**
My thinking is still the primary obstacle. I recognise patterns costing me money, opportunity, and progress.
- ☐ **Stage 2 — Skill Acquisition**
My mindset is shifting, but I need to identify and build a marketable skill — through formal education, training, or real-world experience.
- ☐ **Stage 3 — Value Creation**
I have skills but I am not yet packaging them into a clear offer or placing them in front of people who need and will pay for them.
- ☐ **Stage 4 — Income Generation**
I am earning — but it is unstable, inconsistent, or not enough to move toward meaningful freedom.
- ☐ **Stage 5 — Investment Thinking**
I earn consistently but I am not yet growing it. Money flows in and out without multiplying.
- ☐ **Stage 6 — Wealth Creation**
I am investing — but I want to accelerate the compounding and build wealth that outlives me.

Be honest. There is no wrong stage to be at. There is only where you are — and the next step forward from there.

THE COMPLETE JOURNEY

Three Books. Six Stages. One Destination.

The MonetumThrive series is one complete journey — each book taking you deeper into the six-stage wealth path.

BOOK 1 — AVAILABLE NOW

Stage 1: Mindset

MINDSET MAKEOVER

This toolkit is the introduction. The full [Mindset Makeover eBook](#) is the complete Stage 1 work — 12 weekly chapters, journal exercises, affirmations, and bonus chapters on financial literacy and legacy living. Written in simple, daily English.

- ◆ 12 weekly chapters — one transformation stage per week
- ◆ Journal exercises at the end of every chapter for deep assimilation
- ◆ Affirmations and weekly identity commitments throughout
- ◆ Bonus: Financial literacy fundamentals + Legacy Living chapter

BOOK 2 — COMING SOON

Stages 2 & 3: Skill + Value

SKILL-TO-SCALE FRAMEWORK

Identify your skill, package it into a monetisable offer, and place it in front of the people who need it and will pay for it — for real, consistent income.

- ◆ Identify the skill the market will pay for — aligned to who you are
- ◆ Package it into a clear offer and master the attention game

BOOK 3 — COMING SOON

Stages 4–6: Income · Investment · Wealth

CHOICE SKILLS

Proven, working skills and business models generating real income today — online and offline. Turns consistent income into lasting, compounding wealth.

- ◆ Ready-to-deploy skills and income models you can start with now
- ◆ Investment fundamentals and wealth-building architecture
